

KiWi Business Credit Fund LP (Class J)

Investment Strategy

KiWi Business Credit Fund (the "Fund") invests in small business loans via fintech. The Fund is managed by Kilgour Williams Capital and aims to generate regular monthly distributions to investors. Leveraging its considerable credit expertise, Kilgour Williams Capital uses proprietary models to guide its selection of loans with the highest return-for-risk and maximizes portfolio diversification to mitigate risk. No single loan represents more than 2% of the portfolio and target duration is less than 18 months. An independent valuation firm conducts a monthly mark-to-market.

March 2025 Commentary

In 2023 & 2024, the Fund was recognized by the Canadian Hedge Fund Awards as one of the top performing private debt funds. In March 2025, the Fund returned 0.85%, bringing the 1-yr return to 10.1% (net).

The Fund continues to provide strong distributions with minimal volatility despite economic uncertainty. We note that companies that are active in tariff-sensitive sectors (automotive, steel, industrial, etc.) are generally not small businesses and therefore not represented by the loans in our portfolio. We are also actively avoiding sectors and businesses with cross-border supply chains (e.g. importers of Chinese manufactured products) and those with exposure to inflated input cost (e.g. transportation and construction/contracting).

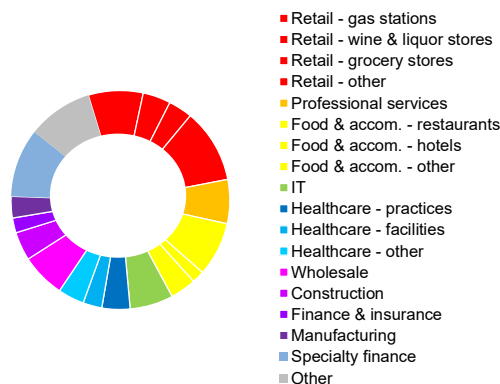

Delinquency levels are benign and in line with historical trends. Our fintech partners are providing excellent deal flow at high expected yields. The portfolio remains diversified across more than 800 loans to small businesses in counter-cyclical and cycle-neutral sectors across the US. The loans have terms generally under two years and are fully amortizing (mostly daily / weekly pay).
